When recyclable materials end up in the trash, they take up valuable space in the landfill and contaminate our environment. Always place recyclables in the correct bin!

First, oil is extracted from the Earth & sent to a refinery where it is cleaned.

Next, the oil is shaped into pellets that are heated & shaped into bottles.

Then, the bottles are filled with water & brought to stores.

Placing recyclable materials into the correct bin allows them to be melted down and used a second time, saving resources and the environment!
TIP OF THE MONTH: Anticipate recycling! When purchasing products, look out for goods made from recycled materials to support sustainable businesses & goods with minimal or recyclable packaging to help reduce waste.

Free Christmas Tree Recycling at the Yolo County Landfill

If you need to dispose of a Christmas tree this year, please remove all decorations, metal, lights, and the tree stand before you bring it to the Yolo County Landfill for free recycling!

The "CRV" on your bottles and cans stands for California Redemption Value.

Or in other words...

To redeem your deposit, find a buy back location near you at www.bottlesandcans.com.

Household Hazardous Waste (HHW) Drop-Off Days
Every Friday and Saturday
7:30 - 3:30

BIG BLUE BARN THRIFT STORE
APPOINTMENT ONLY SHOPPING
CALL: 530-666-8799
Both are located at the Yolo County Landfill at 44090 CR 28H in Woodland.
Yolo County has two waste haulers: Waste Management and Recology Davis. See the month of December for more information on your hauler!

Food & organic waste includes scraps of fruits, bread, meat, bones, egg shells, grass, wood chips, leaves, & more.

Did you know that food-soiled paper like napkins, coffee filters, & pizza boxes should also go in the organics bin?

Using compost increases the nutrient content of soil and can be a great addition to your at-home garden!

Organic waste comes to Yolo County Central Landfill's Anaerobic Composter to be converted to renewable energy and returned to the Earth as compost to close the circle!

Did you know? “Organics” does not mean organically grown. It refers to any material that can be converted to compost and returned to the Earth as soil. Things like food scraps, paper napkins, coffee grounds, grass clippings, and even pizza boxes are considered “Organics”!

TIP OF THE MONTH: Make food scrap collection easy! Put a medium sized bowl on the counter before you start cooking and place any scraps in there as you go. When you’re done, it’s a one-step dump in the organics bin. Easy for you and great for the environment!

Composting at home... 
...is a great way to see the results of organics recycling!

For tips and educational resources on how to get started, visit www.CalRecycle.ca.gov/Organics/

TIP OF THE MONTH: Make food scrap collection easy! Put a medium sized bowl on the counter before you start cooking and place any scraps in there as you go. When you’re done, it’s a one-step dump in the organics bin. Easy for you and great for the environment!
HOUSEHOLD HAZARDOUS WASTE: HOW IT WORKS

*to see a full list of hazardous waste items, visit YoloCounty.org/Landfill

Why can't it go in the trash?

It is illegal to dispose of hazardous waste in the garbage or recycling because chemicals can be released into the environment and contaminate our air, water, soil, and possibly the food we eat, potentially causing serious health problems in humans and wildlife.

Where does it go instead?

Yolo County Central Landfill’s Hazardous Waste Facility handles the safe disposal of these items and offers residents FREE disposal of hazardous waste every Friday and Saturday from 7:30 AM to 3:30 PM.

Seniors and disabled residents who are unable to drive may call (530) 666-8856 to schedule a free pick-up appointment. See the list of resources in the back for other safe disposal options!
**TIP OF THE MONTH:** The Yolo County Landfill has a re-use shed for hazardous waste items that are in good condition or unused. Items like paint, lawn & garden supplies, and more are available to the Yolo community for FREE Fridays and Saturdays from 7:30 AM to 3:30 PM!
The **best** way to reduce waste is to not create it in the first place! Reducing your consumption and reusing items when you can are the **most effective** ways you can preserve natural resources, protect the environment, and save money!

Making new products requires **a lot** of materials and energy. Reusing **saves the energy** needed to dismantle and remanufacture products & **reduces the waste** and pollution from raw material extraction.

Join us in diverting waste from the landfill at our monthly Big Blue Recycling Barn events! Check the calendar for our open dates.
The Big Blue Barn accepts donations!
Donate your unwanted items to the Big Blue Barn Thrift Store at the landfill during normal business hours.
Don't forget to shop with us every month too!

Look for durable re-usable replacements for the single use items you currently use. Bring your own shopping bags to stores. When getting food to-go, bring your own cup and to-go container.

TIP OF THE MONTH: If you can't reuse it, maybe someone else can. Consider donating unwanted items to a local thrift store or non-profit. To find more places to shop for used items or donate your own, check the back pages of this calendar for a list of local thrift stores!
Focuses on increased commercial waste diversion as a method to reduce greenhouse gas emissions.

Requires all businesses that generate 4 or more cubic yards of solid waste weekly & apartment properties with five or more units to have a recycling program.

Assembly Bill 341

Educates and involves consumers in achieving the state’s recycling goals.

Requires businesses subject to Mandatory Commercial Recycling and/or Mandatory Organics Recycling to make recycling and/or organic recycling bins available to customers.

Assembly Bill 827

Establishes a 75% methane emissions reduction target by 2025 in a statewide effort to reduce emissions of short-lived climate pollutants.

Further supports California’s efforts to achieve the statewide 75 percent recycling goals and strengthens the implementation of mandatory recycling.

Senate Bill 1383

When you **recycle**...  

**less** energy is used so **fewer** fossil fuels are burned which **reduces** the amount of greenhouse gases entering into the atmosphere and helps **reverse** climate change and **save** wildlife!
## RE·CY·CLE (verb):
The practice of recovering **used materials** from the waste stream and then incorporating those same materials into the manufacturing process to **decrease greenhouse gas emissions** from manufacturing brand new products.

### Always follow your jurisdiction’s guidelines on separating paper recyclables from plastics and glass.

### TIP OF THE MONTH:
If you don’t know whether or not something is recyclable, check with your local recycling program. The back of this calendar has information listed for each city.
**Strengthens the implementation of mandatory commercial organics recycling established in AB 1826 and mandates food recovery as a diversion tactic.**

**Senate Bill 1383**
- Establishes methane emissions reduction targets through a 75% reduction in the statewide disposal of organic waste by 2025.
- Strengthens the implementation of mandatory commercial organics recycling established in AB 1826 and mandates food recovery as a diversion tactic.

Organic waste includes food waste, green waste, landscape and yard clippings, nonhazardous wood waste, and food-soiled paper.

In landfills, organic waste generates **methane**.
Methane traps heat in the atmosphere about **80 times more** than CO₂.

In order to avert the worst effects of climate change, we need to **reduce methane emissions**.

The good news is... organic waste is **readily compostable** into soil!
JUNE

TIP OF THE MONTH: Always practice reducing and reusing before recycling your organic waste. Make shopping lists so you only purchase the food you need, try new recipes to use up ingredients, & recover anything unwanted by donating to a local food bank or pantry.

In 2018, 39 million tons of waste was landfilled. One third of it was compostable.

SUNDAY MONDAY TUESDAY WEDNESDAY THURSDAY FRIDAY SATURDAY
HHW HHW HHWHHW HHWHHW HHW HHW

Collect food scraps in a container provided by your city or one that seels completely.
Line indoor collection bins with ASTM D6400 rated compostable bags.
Sprinkle some baking soda in the bin if you notice any smells.

In 2018, 39 million tons of waste was landfilled. One third of it was compostable.

BIG BLUE BARN THRIFT STORE
APPOINTMENT ONLY SHOPPING
CALL: 530-666-8799
Both are located at the Yolo County Landfill at 44090 CR 28H in Woodland.

Keep pests out of your compost!
- Collect food scraps in a container provided by your city or one that seals completely.
- Line indoor collection bins with ASTM D6400 rated compostable bags.
- Sprinkle some baking soda in the bin if you notice any smells.

Household Hazardous Waste (HHW) Drop-Off Days
Every Friday and Saturday
7:30am to 3:30pm
PROPER DISPOSAL OF HOUSEHOLD HAZARDOUS WASTE

WHY ISN'T HAZARDOUS WASTE TRASH?

Bans fluorescent bulbs, batteries, and other mercury-containing devices such as TVs and computer monitors from landfills.

Universal Waste Rule

Yolo County Landfill offers free HHW drop-offs to residents every Friday & Saturday from 7:30am to 3:30pm. Free senior & disabled pick-ups are also offered - call (530) 666-8856 to schedule an appointment.

Universal Waste Rule

Steps for Disposal

- Learn what materials are hazardous waste visiting YoloCounty.org/Landfill.
- Gather hazardous waste from around your home.
- Check the 'Resources' section in the back of this calendar to find safe disposal locations near you.

IT'S NOT JUST THE RIGHT THING TO DO, IT'S THE LAW

Household hazardous waste like batteries, electronic devices, motor oil, paint, household cleaners, & more contain dangerous chemicals that can be released into the environment and contaminate our air, water, and the food we eat when illegally or improperly disposed of.

You can also cause additional hazards to your garbage handler by illegally throwing hazardous waste in the garbage.
TIP OF THE MONTH: In addition to the landfill, there may also be businesses in your community that offer free Household Hazardous Waste drop-offs. Check the 'Resources' section in the back of this calendar to find the drop-off sites closest to you to make your HHW recycling easy!

Be Sharps Smart!
Dispose of your sharps responsibly by bringing them to our HHW drop off in a rigid plastic container. Make sure the lid is taped shut and “sharps” is written on the outside.

Jim's Disposal
With every load, please throw away your old, used motor oil. It's good for the environment and good for your pocketbook. Call Jim's at 530-666-8799 to schedule your next appointment.

CONSTRUCTION & DEMOLITION RECYCLING

Yolo County Landfill accepts separated and mixed:

- Clean wood
- Porcelain tile
- Drywall
- Bricks
- Metals
- Cardboard
- Concrete
- Rigid plastics
- & more!

The Big Blue Recycling Barn at the Yolo County Landfill also accepts reusable building materials at no charge.

Bring your leftover materials to the scale house during normal operating hours!

LOCAL

Yolo County, and all the cities within, have a Construction and Demolition (C&D) Ordinance that requires construction, demolition, and renovation projects to reuse and/or recycle their waste.

STATE

The CALGreen building code requires at least 65% of the waste generated during construction or demolition projects be diverted from the landfill.
**TIPOF THE MONTH:** Make construction or improvement projects more sustainable! Switch to LED lighting. Find project materials like doors, windows, and other reused supplies at the Big Blue Recycling Barn Thrift Store. See the calendar key for information about event days.

The Yolo County Landfill sells reused construction supplies including reclaimed wood, sand and gravel, packed or bulk firewood, and pallets! Visit YoloCounty.org/Landfill for pricing information.

**Be Green At Home!**
- Use **recycled materials** for home improvement projects
- Plant **native species** in your garden & much more!

| 29 | 30 | 31 | | | | |
**RECYCLING DO'S AND DON'TS**

**DO:**
- Separate your recyclables correctly by only putting the items shown below into your recycling cart.
- Rinse and dry recyclable containers before placing them in your recycling cart.

**DON'T:**
- Don't bag your recyclables. Plastic bags cannot be recycled and contaminate batches of good recyclables.
- Don't overfill your recycling cart. The lid must be able to close in order to prevent litter and allow your hauler to safely pick-up your cart.

- Plastics (Bottles, Jugs, Jars & Containers)
- Glass Bottles & Jars
- Metal/Aluminum (Cans, Aerosol Cans, Foil)
- Clean & Dry Paper, Cardboard
**SEPTEMBER**

**TIP OF THE MONTH:** Recycling correctly is essential to prevent contamination! Hazardous waste, plastic bags, food waste, and other contaminants can ruin entire batches of recyclables. If you are unsure if something is recyclable, check with your local recycling program!
**ORGANICS DO'S AND DON'TS**

**DO:**
- **Separate your organic waste** from other trash. Every little bit counts, saving landfill space & producing usable soil for the community.
- Line indoor collection bins with ASTM D6400 rated **compostable bags**. This will help defend against pests and make transferring to the organics cart easy.

**DON'T:**
- Don't put organic waste into the trash or recycling bins. When placed in the trash, organic waste **fills up the landfill** unnecessarily. When placed in the recycling bin, it **contaminates** batches of good recyclables.
- Don't leave any **inorganic packaging** like food labels, plastic wrap, or rubber bands in your organic waste.

*Look for compostable bags like these at your local supermarket!*
Did you know? When organic waste is landfilled, methane gas is produced. Methane has up to 86 times more heat trapping potential than other greenhouse gases, which makes it a huge contributor to climate change.

**TIP OF THE MONTH:** If you want to keep your organics cart clean, put your food waste, yard trimmings, and food soiled paper into a paper bag or a ASTM D6400 rated compostable bag before transferring it to the cart.
The Yolo County Landfill has a re-use shed for hazardous waste items that are in good condition or unused. These items are available to the local community for FREE Fridays and Saturdays from 7:30 AM to 3:30 PM!

DO:

- Do utilize reuse programs in your community like the one pictured below at the Yolo County Landfill.
- Do check your jurisdiction's resources to determine where each hazardous item should go.

DON'T:

- Don't put any hazardous waste items in the garbage or recycling. Not only is it harmful to the environment, it's illegal.
- Don't remove product labels or remove products from their original containers for storage.

HOUSEHOLD HAZARDOUS WASTE DO'S AND DON'TS
**TIP OF THE MONTH:** If you need a hazardous waste product for a project, make sure to buy the correct amount so there is as little waste as possible. If you do have leftovers, give it to someone who can use it with the labels intact or bring it to the re-use shed at the landfill!

---

**PaintCare.org** is an excellent resource for safe paint disposal. Visit their site to find one of their drop-off locations for sorting, reuse, recycling, energy recovery, or safe disposal.

---

**Household Hazardous Waste (HHW) Drop-Off Days**
Every Friday and Saturday
